

 TIANMA

TO CREATE
COLORFUL LIFE

To reinforce our European Automotive team based in Duesseldorf we are looking for a highly motivated

SENIOR RESIDENT ENGINEER (F/M/D)

As a valuable member of the Automotive team, you will provide technical and project support to our customer with a profound knowledge of technical processes and market requirements in the automotive sector paired with a positive attitude and high engagement.

JOB CONTENT

- Identification and Management of project related customer concerns, attending and participating in technical and product development meetings
- Support vehicle builds and launches at customer prototype, pilot, or production assembly plants
- Analysis of vehicle tests, component tests and integration tests with interface components
- Evaluate customer requirements and review for technical compliance
- Support Quality engineers in quality issues at customer's side
- Close cooperation and build good relationships with cross-functional engineering teams, Quality engineers and our Headquarter in China

WE OFFER

- In addition to an attractive salary we offer variable incentive bonuses as well as non-monetary benefits
- Flexible working time
- 30 days' of holiday and special paid leave
- An international, professional and dynamic team
- Excellent Healthcare Benefits and Team events
- Advanced Training program

Real customer success happens because you care. You are passionate about engaging your customers and understanding their needs. You have impeccable relational skills and can create win-win environments for all parties you work. If this sounds good to you, then please forward your application incl. salary expectation and your earliest possible start date by email to: recruiting@tianma.eu.
